CITRUSMADE in the WORLD

CONSTANTLY GROWING

PASSION and COMPETENCE

Human Resources are the most important asset of the Company.

A team of experts, with more of twenty years of experience in several areas, from the citrus to the gastronomy sector, represent the strong point for the expansion of Citrusmade. **The constant attention and care applied to the selection of raw materials,** the use of the **best tools in the Market,** the **continuous training** arrangement of our production personnel and the

existence of **extensive databases of information,** make possible to accurately reproduce a simple commodity or create an exclusive bouquet. **To support the team there is a laboratory with the latest generation of chromatographs and mass spectrometers** that guarantees high performance for the quality control as well as research and development.

The ADDITIONAL VALUE

Sicily has a
prominent position
in the production
of essential oils due
to their properties
unique in the world.

Its contribution is expressed in terms of:

- **research and development of new citrus specialties**
- **continuous investments in technology**
- updates in using the latest **extraction techniques**
- collaboration with producers to ensure the **traceability of raw materials**
- **constant growth** in production of citrus

The attention to environmental sustainability is expressed by the various practices implemented to **limit the wastage and recover processing waste.**

QUALITY e SUSTAINABILITY

The Company is committed to **encourage and support local farmers in converting from conventional to organic cultivation** in order to achieve **greater quality of the harvest and territorial sustainability.**
